

COVINGTON
georgia

HELP US HELP YOU

WITH SPRING UPON US, HERE ARE SOME THINGS TO REMEMBER WHEN YOU ARE WORKING IN YOUR YARD.

- We will collect up to six cubic yards of yard debris per week (the equivalent size of a pickup truck bed).
- We do not collect debris from the removal of trees over five inches in diameter. It is the responsibility of the property owner or resident to dispose of waste from tree removal.
- Yard debris should be in one centrally located single pile, not several smaller piles.
- Please do not place debris in plastic or non-biodegradable bags.
- Please ensure there are no foreign objects or materials in debris piles.

When the city mulches debris and there is other material present, the mulch gets contaminated with plastic and is useless. At that point, the City has to pay a landfill tipping fee to dispose of it.

WITH YOUR HELP, WE CAN KEEP COVINGTON A BEAUTIFUL PLACE TO LIVE, WORK AND PLAY.
