

NOTICE

Electric Meter Replacement

Over the next four months, the City of Covington will be replacing all electric meters on our system. In order for the meter to be replaced, a brief outage will occur at each residence during the change. We anticipate the outage taking approximately five minutes per meter. Please expect a member of our Electric Department team to approach your residence to change out the meter.

These new meters will report the customer's monthly consumption directly back to us without meter readers physically going to each residence to collect readings.

In addition, the new meters enable the City of Covington to remotely monitor power outages at each residence. In the event of a power outage, we will be notified directly of the power loss and can dispatch crews without customer notification.

**THE NEW METERS
ELIMINATE THE
NEED TO NOTIFY THE
ELECTRIC DEPARTMENT
OF A POWER OUTAGE!**

If you have any questions about the impending changes, please contact the City of Covington's

Electric Department @ 770-385-2027
